

INTRODUCTION

A unique breed of individuals is symbolic of the Corvette drivers. The Corvette will transform even the meekest of men and women into competitors thirsting for challenge and striving for perfection so beautifully portrayed in the design and operation of their machine. A feeling of pride is every Corvette owner's reward.

In 1965 National Council of Corvette Clubs Sanctioned Competition Program was initiated. The Competition Program has grown vastly since then. This book will help you to understand the Competition Program as set out by the members of the National Council of Corvettes Clubs. You, as a member, are the one that makes the Competition Program a success, so read it carefully. As a member, you are responsible to see that the program is carried out to its fullest capacity.

PURPOSE

The purpose of the Sanctioned Competition Program is to encourage interactivity between individual Corvette Clubs within the National Council of Corvette Clubs (NCCC). The National Council of Corvette Clubs is operating the Sanctioned Competition Program to provide uniform and fair standards under which competition events may be sponsored by individual Corvette Clubs.

The program depends entirely on voluntary participation by clubs and individual club members. This set of rules will be made available to every member of the National Council of Corvette Clubs. The rules and regulations herein stated must be complied with in order for an event to be sanctioned by the National Council of Corvette Clubs. Any local and regional rules that conflict with the rules herein will be null and void.

SPORTSMANSHIP

Participants should remember that National Council of Corvette Clubs events are sporting events to be conducted in a sporting spirit; that all events are organized and managed by amateurs who cheerfully give their time to do their best; that the competitors may expect some imperfections of the organizers and of their fellow competitors; and that, to a reasonable extent, these things are a part of the chance they take in entering competition in the events.

DISCLAIMER

"The rules and/or regulations set forth herein are designed to provide for the orderly conduct of competition events and to establish minimum acceptable requirements for such events. These rules shall govern the condition of all National Council of Corvette Clubs, Inc. events and by participating in these events, all National Council of Corvette Clubs, Inc. members are deemed to have complied with these rules. No express or implied warranty of safety shall result from publications of or compliance with these rules and/or regulations. They are intended as a guide for the conduct of the sport and are in no way a guarantee against injury or death to participants, spectators, or others."

COPYRIGHT

This Handbook (Rulebook, Bylaws and Standing Rules) is copyrighted by National Council of Corvette Clubs, Inc. NCCC members may reproduce all or part of this book as published. Any NCCC member found guilty of changing or representing a changed copy as an original copy are subject to the penalties set forth in Chapter 9 of this Rulebook and/or Article III, Section 6 of the NCCC bylaws.
